

**The Vivian Group**  
DEVELOPMENT, RESEARCH AND POLICY CONSULTANTS

# Consultant- Analyst

From time-to-time, The Vivian Group considers projects that require technical expertise from any range of disciplines. Accordingly, we maintain a database of a diverse network of professionals. Our projects are not full-time commitments. They generally require engagements of one to six months, with flexibility in how workloads are scheduled.

If you'd like to be added to this database, send a cover letter and a copy of your curriculum vita (CV) via email to [consultant@viviangroupbahamas.com](mailto:consultant@viviangroupbahamas.com).

Your cover letter should indicate your areas of expertise and interest. Please do highlight projects in which you played a key role, publications that you've authored, roles and initiatives that help to convey your unique skill set and experience. We look forward to hearing from you.
